

REMARKS

Claims 1-46 were presented for examination in the application as filed. The instant amendment cancels claims 34-46 without prejudice. Thus, claims 1-33 are presented for examination upon entry of the instant amendment. Applicants respectfully reserve the right to file a divisional application directed to the subject matter of the non-elected claims.

The Office Action requires restriction among Group 1, claims 1-33, drawn to a structural arrangement of a repeater; and Group 2, claims 34-46, drawn to a process for detecting an interference in an uplink signal.

Applicants elect, without traverse, the invention of Group 1, i.e., claims 1-33.

Claims 18, 23, and 24 are amended to correct minor errors of form. These claims after amendment remain directed to elected Group 1. Applicants submit that the application is in condition for examination. Favorable consideration is respectfully solicited.
